# KALLISTA.
Installation Guide

Stainless (Non-Staining) Plumbers Putty

Sealant Tape

| **Record your model number below for future reference:**	**Important Information** Observe all local plumbing and building codes.	Do not use petroleum-based plumbers putty on marble or stone surfaces.	**1** Install the O-ring to the underside of the escutcheon.	**2** Place the escutcheon over the spout hole. Install the faucet.
3 Secure the faucet.	**4** Install the lift rod.	**5** Partially thread the screws into the rings.	**6** Install the O-rings. Install the handles.	**7** Install the washer and ring. Do not tighten the screws.
8 Turn the handles to "Off." Align the handles. **Optional:** For Saint-Louis handles, align so the logo faces away from the spout.	**9** Secure the handles.	**10** Install and tighten the tee.	**11** Install the O-ring to the tee. Secure with the nut.	**12** Connect the hoses.
13 Remove the cover and apply plumbers putty to the flange.	**14** Assemble the drain. Install the flange.	**15** Tighten the nut. Remove excess sealant.	**16** Insert the rod and tighten the nut. Insert the stopper. If needed, turn the stopper bolt to adjust the height.	**17** Connect the lift rod using the spring clip. Tighten the thumbscrew. Connect the trap to the tailpiece.

In step 10: Gasket, Rubber Washer
